Hospital San Filippo Neri (OO.RR. of Rome)

Public Health Sector

Hospital practical training in General Surgery

From August 1976 to February 1976

Municipality of Formello, Rome

Public Health Sector

Replacement doctor in general medicine

RECOURSES AND WORKSHOPS ABROAD

July – August 1989

Centre Cardio-Thoracique de Monaco, France

Stage in Cardio Thoracic Department, Dir Dr Vincent Dor

May 1991

Fraunfeld Cantonal Hospital, Switzerland

Refresher Course, Department of Vascular Surgery, Dir Dr Jon Largiadèr

September 1993

Groupe Hospitalier Pitie'-Salpêtrière, Paris - France

Stage, Service de Chirurgie Vasculaire Dir. Prof Edouard Kieffer

OPERATING ACTIVITY

Over the course of his hospital work he has performed over 3000 (three thousand) vascular surgical interventions, involving every aspect of his specialization, both elective and emergency:

complications of vascular surgery

acute limb ischemia

vascular trauma with inclusion of isthmus rupture of the aorta treated with open or endovascular surgery

chronic ischemia of the lower extremities :

- *direct reconstruction for aortoiliac occlusive disease*
- *extra-anatomic bypass*
- *infrainguinal bypass*
- *profundoplasty*
- *endovascular surgery*
- *foot ulcers in diabetes mellitus*
- *lumbar sympathectomy*
- *thoracic outlet syndrome*

arterial aneurysms :

- *open and endovascular surgery to treat aneurysms of the abdominal aorta and iliac arteries*
- *ruptured abdominal aorta aneurysms*
- *thoracoabdominal aorta aneurysms treated with open, endovascular and hybrid surgery*
- *femoral and popliteal aneurysms*
- *lower and upper extremities aneurysms treated with open and endovascular surgery*
- *infected aneurysms*
- *splanchnic arteries aneurysms*
- *acute and chronic intestinal ischemia*

extracranial cerebrovascular disease :

- *carotid stenosis treated with many carotid endarterectomy (more than 1.500 interventions) and with stenting*
- *aneurysms and carotid body tumors treated with open surgery*

renovascular disease :

- *stenosis, aneurysms treated with open and endovascular surgery*
- *surgery of the varicose veins*
- *extremity amputations*

Author of numerous publications pertaining to various issues in Vascular Surgery

Speaker and moderator at conventions and symposiums on Vascular Surgery

SCIENTIFIC PRODUCTION IN LAST YEARS

Di Cintio V, De Santis F, Mancuso M et al: *Ruolo della “ chirurgia endovascolare nel trattamento delle rotture aortiche nel politraumatizzato con patologia polidistrettuale di pertinenza chirurgica.* Atti del XXV Congresso Nazionale ACOI – La Chirurgia dei due mondi . (Spoleto 24 – 267 maggio 2006)
